

Transfer Partner Terms

- Transfers must be made in multiples of 1,000 points.
- Bilt Blue members must transfer a minimum of 2,000 points. Bilt Silver, Gold, and Platinum members must transfer a minimum of 1,000 points.
- Each transfer partner may enforce a maximum point transfer allowance in a given time period. These maximum transfers will be indicated in the Bilt app at the time of transfer.
- You must be enrolled in the partner program and must link your partner account to your Bilt account in order to transfer points.
- In most cases, transfers will be complete within 20 minutes, but it may take up to 48 hours for transfers to be completed.
- Once you have transferred points, they cannot be reversed or canceled unless otherwise noted. They are no longer Bilt points and they become subject to any applicable terms and conditions governing the partner program to which you transferred the points.
- Bilt is not responsible for availability of flights, accommodations, or any other goods or services in any transfer partner program.
- Reward flights, accommodations, and upgrades may be subject to taxes, fees, charges and surcharges, as determined by the partner program, and any such costs are your responsibility.
- Moving or transferring Points to an ineligible third party or account is in violation with the program terms and may result in account closure and/or a forfeiture of your points.
- You may transfer points to a partner account only if it belongs to you and is in your own name.
- All transfers are subject to both the [Bilt Rewards Terms & Conditions](#) and the Terms and Conditions for the partner program to which you are transferring your points.
- All point transfers are subject to any partner-specific terms listed in the Bilt app or website at the time of transfer in addition to the items listed above.
